Learning Outcomes

Title: Infusing Excellence into Post-acute Rehabilitation

1. Learners will be able to recognize the appropriate indicators for a subacute or transitional rehabilitation program.
2. Learners will be aware of technological advances available to optimize the recovery of brain and spinal cord injuries.
3. Learners will be able to identify all necessary components of a comprehensive, post-acute rehabilitation program.

9:15 AM to 10:15 AM

Title: Ethics in Research: The Role of Case Management

1. Describe how case managers can be involved in research.
2. Identify the ethical principles applied when participating in a research study.
3. Examine and compare the ethical principles in research to the CCMC Code of Professional Conduct for case managers and its impact.

10:30 AM to 11:30 AM

Title: Managing Traumatic Brain Injury

1. Audience will recognize the typical symptoms and interventions involved in treating patients with TBI.
2. Audience will identify the latest techniques and therapeutics in treating TBI patients.
3. Audience will be able to describe the continuum of care available to patients with TBI.
