PATIENT

WHAT DOES PATIENT MEAN?

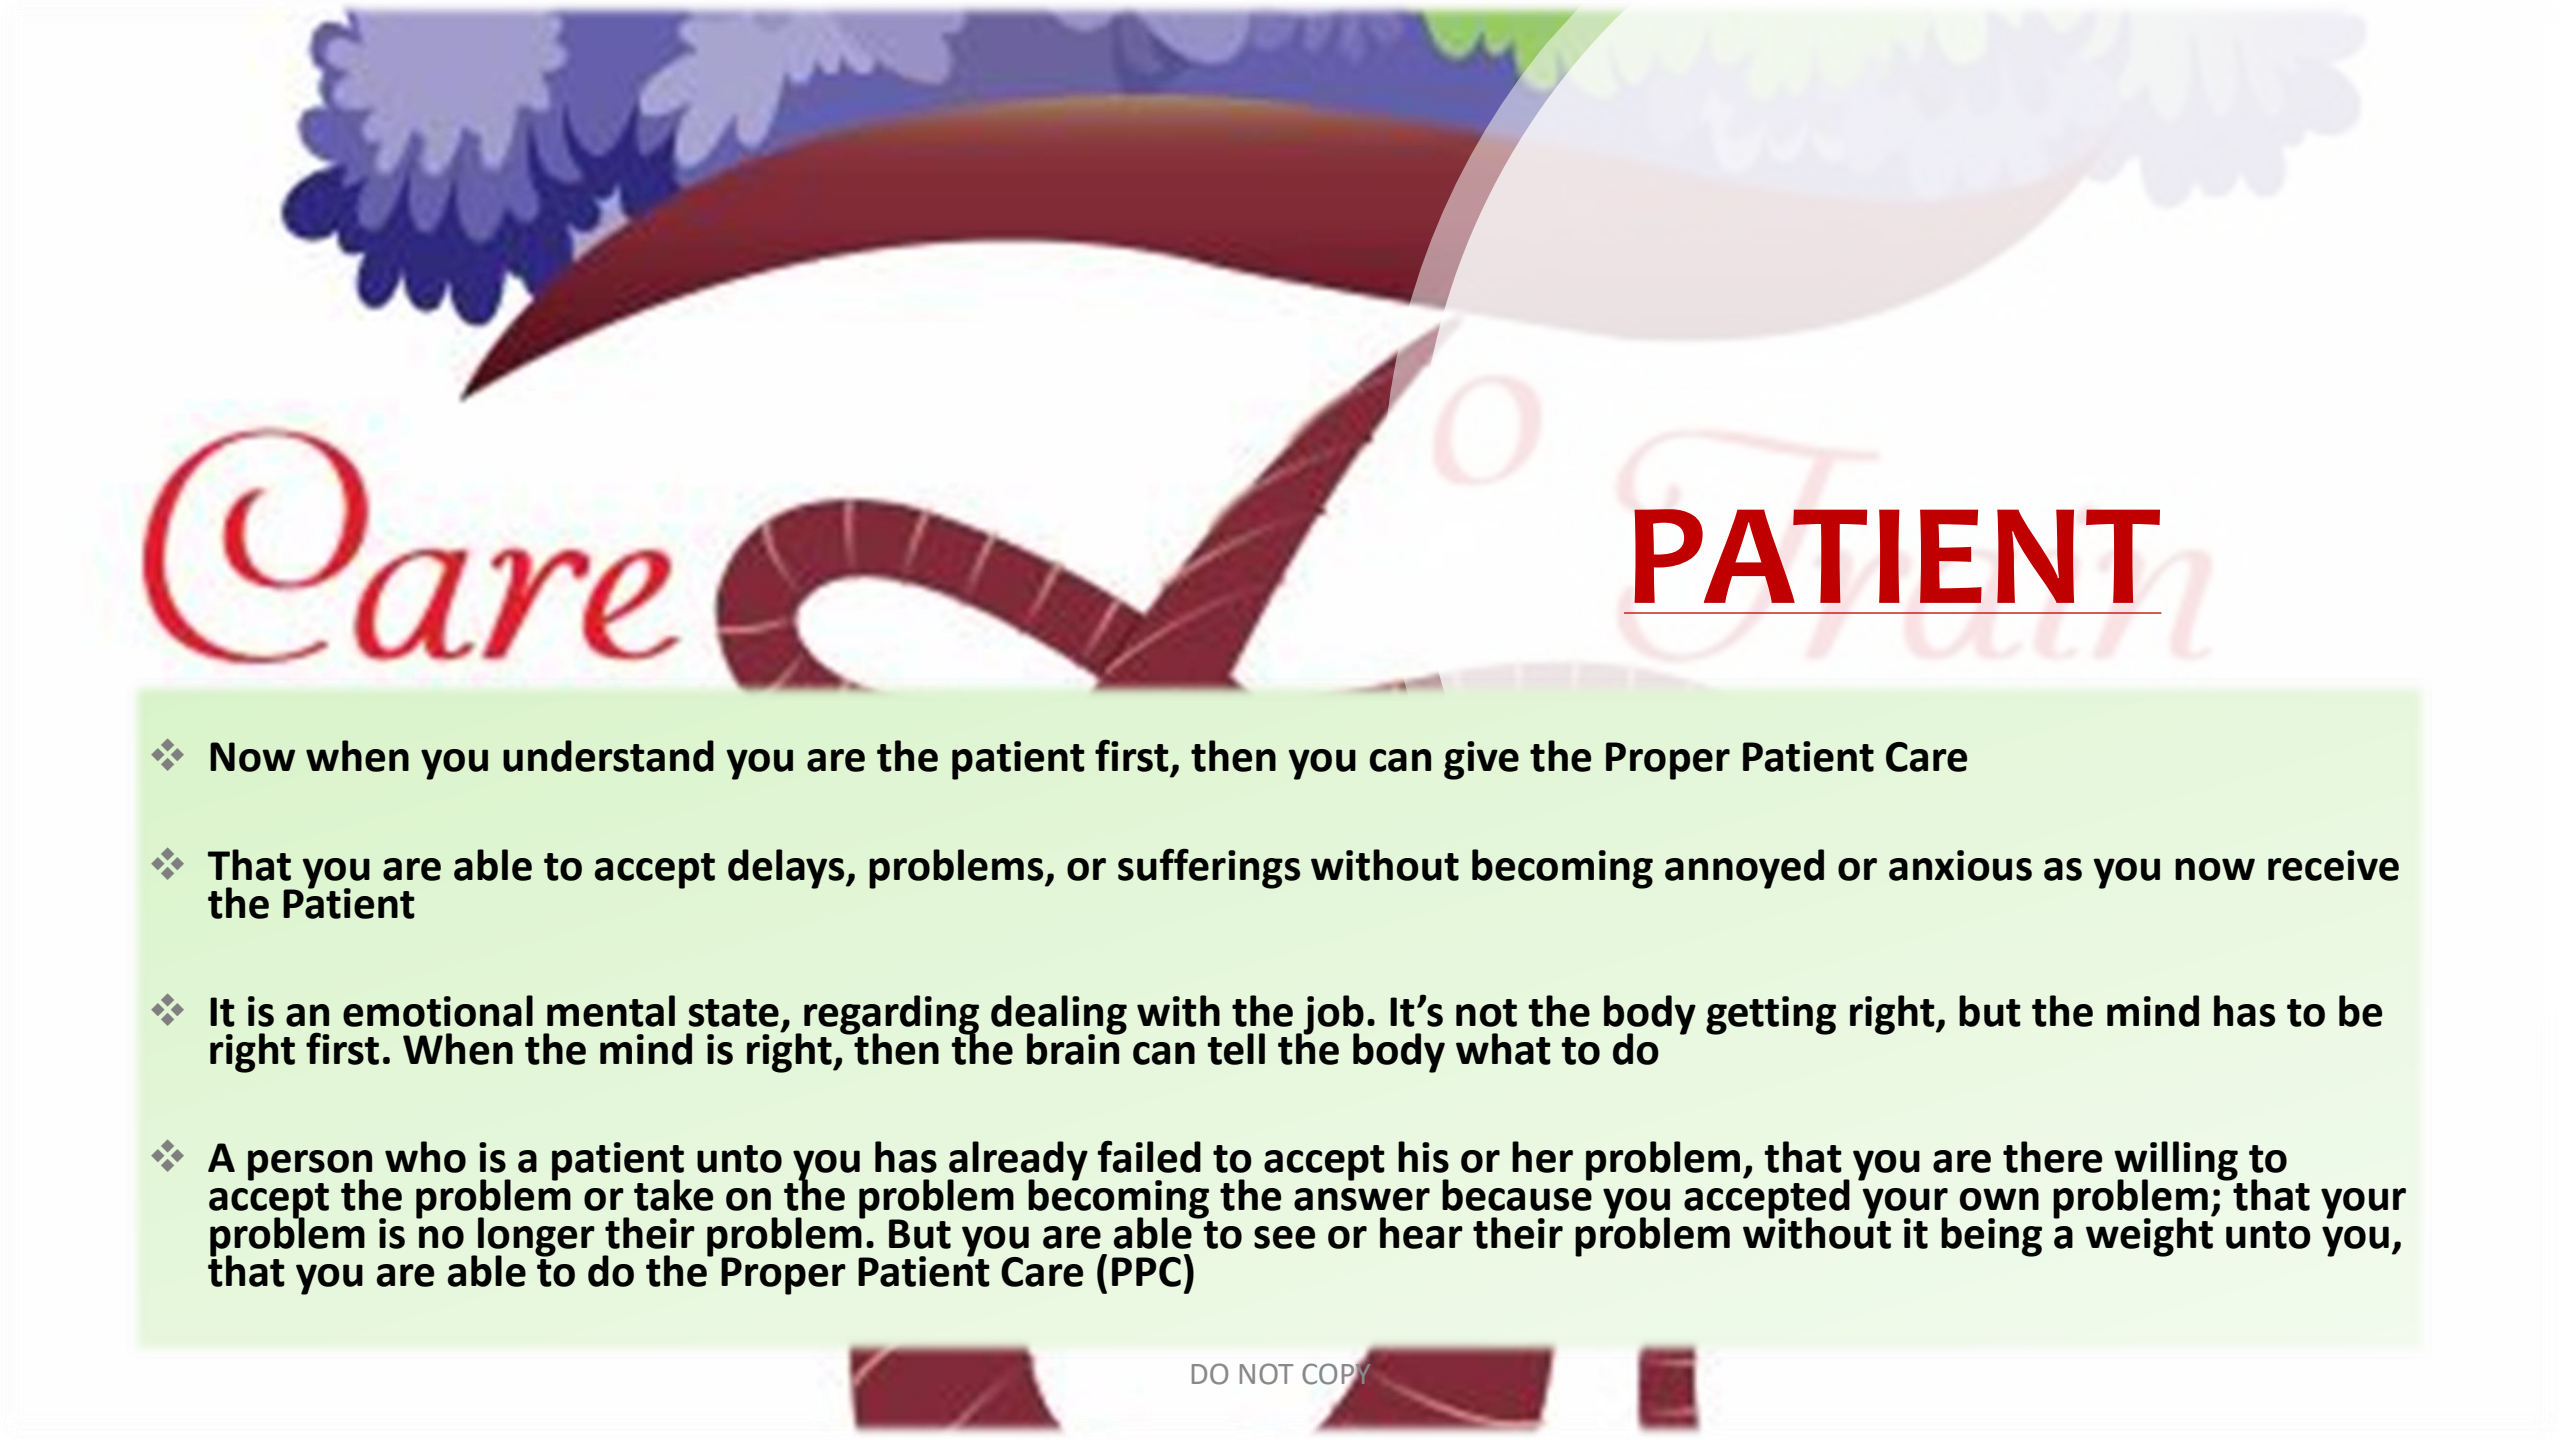

- ❖ We come as the answer and support for ALL those in the healthcare field, not just for the patients/residents, but for the employees and heads in charge too

The FIRST definition of Patient (Patient A)

- ❖ Able to accept or tolerate delays, problems, or sufferings without becoming annoyed or anxious

(Patient B)

- ❖ A person receiving or registered to receive medical treatment
- ❖ When you know you are the answer to your delay, problem, or suffering, you accept the delay, problem, or suffering, receiving the one who can help you with your delay, problem, or suffering (Care To Train)
- ❖ Care To Train is the one that shows us that we are ALL patients, that we may Now become Patient A

Care

PATIENT

- ❖ Now when you understand you are the patient first, then you can give the Proper Patient Care
- ❖ That you are able to accept delays, problems, or sufferings without becoming annoyed or anxious as you now receive the Patient
- ❖ It is an emotional mental state, regarding dealing with the job. It's not the body getting right, but the mind has to be right first. When the mind is right, then the brain can tell the body what to do
- ❖ A person who is a patient unto you has already failed to accept his or her problem, that you are there willing to accept the problem or take on the problem becoming the answer because you accepted your own problem; that your problem is no longer their problem. But you are able to see or hear their problem without it being a weight unto you, that you are able to do the Proper Patient Care (PPC)

CARE

SO THEN WHAT DOES CARE REALLY MEAN?

- ❖ Care is not for the patients, for the workers or for the job. Care is unto self, it is for yourself, that you Care to do the job that has been given to you, taking all the responsibilities and being accountable to getting the job done
- ❖ Care is the provision of what is necessary for the health, welfare, maintenance, and protection of someone or something; serious attention or consideration applied to doing something correctly or to avoid damage or risk
- ❖ When you believe you are to care for the patient, then what happens when the patient rejects, yells, or even become violent? Do you still have the same feeling of caring? No, you don't!

CARE

- ❖ **Why? Because you never had the place of care for yourself, that you lose your focus and the patient's problem because it goes back to you bringing your problem to the patient, that you can't accept the patient with a problem and then you can't give the Proper Patient Care (PPC)**
- ❖ **Taking care of yourself is taking the Care unto yourself that you can Now treat others as you treat yourself**
- ❖ **This is why it is important that you bring Care to the patient, because you simply Care to do the job that was given, that you can give the Proper Patient Care (PPC)**
- ❖ **Care To Train is the Care given to teach you how to become Patient A, that now you have Health**

Care 10 Train

HEALTH

WHAT DOES IT TRULY MEAN TO HAVE HEALTH?

- ❖ **HEALTH** means a state of being free from illness OR injury; a person's mental OR physical condition
So if you have a physical injury but are in a right mental state, you have some form of Health, or if you are not in a right mental state but have no physical injury, you still have Health
- ❖ Every person has some form of Health, having the opportunity to become Patient A, to become the Answer
- ❖ When you become Patient A, giving yourself the proper Care, you no longer carry the delay, problem, or suffering, you receive the delays, problems, or sufferings that you are free of the delays, problems, or sufferings, giving you Health

PATIENT, CARE AND HEALTH

SUMMARY

PATIENT – YOU are the Patient; ALL are the Patients

- ❖ You are the Patient (B) to become the Patient (A) to receive the Patient (B), that now you can give the Proper Patient Care (PPC)

CARE – In order to Care you must first have the Care that you give the Care because you care

HEALTH – Now you understand that all have some kind of Health

CARE TO TRAIN is come to you as the Answer to NOW help YOU become the Answer
